PROJECTS

- **STUDENT MANAGEMENT SYSTEM** 2ND sem(2021)

Created a project using C++ language. This project is based on basic student management system application that has a set of cases like enter , show ,search update ,delete and exit.

Main challenge that I have faced was how to update the student of data.

I overcame it by using student roll equal to index value.

- **PORTFOLIO** 4th sem(2022)

Created a portfolio using HTML,CSS and JS that consists of my skills and other project link where anyone can check my all the work and can contact me also.

Where you can see my C ,C++ ,Python and Web Development Projects.

CAREER OBJECTIVE

As a fresher I want to utilize my technical skills that I am familiar with, innovative thoughts and willingness that will help organization in the long run.
